

S+P+F Multifunció

Multipurpose element made in a single piece, ideal for use in parks and gardens. Its structure allows it to cover three basic functions in the area with a single element:

Signage+ Litter bin + Drinking fountain

The perspective of its design with its open and irregular forms is complemented with a stainless steel litter bin of 304 quality with a matt finish, a tap with a galvanized finish and an area to install a 3 mm thick aluminium plaque.

© Patented Model

MATERIAL Reinforced concrete

STANDARD COLOUR White, grey

TEXTURA Stripped, smooth

FINISH Water repellent

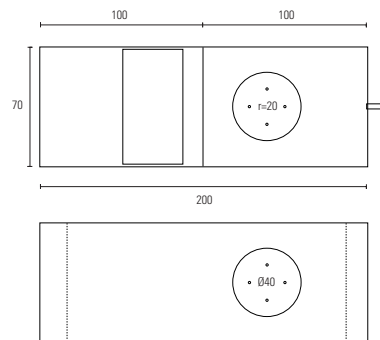

APPROX. WEIGHT 925 Kg.

INSTALLATION Root fixed

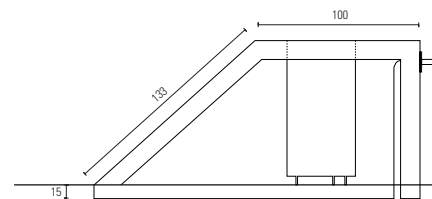

DESIGN Carlos Martín. Architect
